Notes

A	Auto opener, in other words switchblade
As	Assisted opening (you open the blade slightly and then the spring kicks in to open it the rest of the way. Usually legal where stwitchblades are not.)
B	Especially designed for blocking, adding a +10 to block rolls
C	Collapsable baton, generally has a storage length 1/3 of deployed length
F	Folding knife (from the tradition lockback to newer designs)
G	Made entirely from composite material. Undetectable by metal detector (and many x-rays)
H	Hollow handled
O	Out the Front (almost always an auto opener).
T	Made from titanium or a ceramic alloy, and thus non-magnetic
Y	butterfly
