

Title

Trijicon A.C.O.G. TA1

\$950+

The ACOGs are internally-adjustable, compact telescopic sights with tritium illuminated reticle patterns for use in low light or at night. Bindon Aiming Concept (BAC)* models feature bright daytime reticles using fiber optics which collect ambient light. The ACOGs combine traditional, precise distance marksmanship with close-in aiming speed.

Leitz ELCAN

\$1,250

This rugged sighting instrument is comprised of a 3.4x optical telescope and GEN-4 SSL Mount assembly, designed specifically for enhancing the performance of tactical and combat weapons. Developed by Ernst Leitz Canada for the Canadian Armed Forces, the superb optical performance of the ELCAN remains unequalled in the industry. The extra large exit pupil diameter allows fast target acquisition, while the brilliant light gathering characteristics of the ELCAN turn dawn and dusk into day.

EO Tech HWS 552

\$415

The HOLOgraphic Weapon Sight (HWS) is the 1st electro-optic sighting system to apply holographic technology to small and medium-sized weapon platforms. When used in CQB environments, this revolutionary weapon optic delivers amazing speed and accuracy gains, uncompromising use of peripheral vision and leaves no muzzle-side optical signature. The holographic patterns have been designed to be instantly visible in any light, instinctive to center regardless of shooting angle, and to remain in view while sweeping the engagement zone.

Aimpoint COMP M2

\$405

These sights have a special hard-anodized surface and are waterproof to a depth of 75 ft. Features CET technology that provides extremely long battery life, up to 10 years on the lowest setting. The CompM2 models are compatible with 3rd generation night vision devices. Powered by a 3-Volt lithium battery. Aimpoint sights are designed for the "two eyes open" method of sighting, which greatly enhances situational awareness and target acquisition speed. Ten brightness settings; 4 NVD and 6 daylight.

Trijicon REFLEX

\$450

The New Standard for Instant Any-Light Shooting Accuracy Trijicon's enhanced Reflex is the natural evolution in speed-with-precision shooting and true-color target acquisition. It gives you maximum accuracy and true-to-life targeting, instantly, without failure-prone batteries. Mount not included.
